Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Estacada Rural Fire District No. 69, Estacada, Oregon, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Estacada Rural Fire District No. 69's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Estacada Rural Fire District No. 69, Estacada, Oregon, as of June 30, 2017, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of the proportionate share of the net pension liability, schedule of contributions, and budgetary comparison information on pages 4 through 10, 42, 43, and 44, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the management's discussion and analysis, schedule of the proportionate share of the net pension liability, and schedule of contributions in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the management's discussion and analysis, schedule of the proportionate share of the net pension liability, or schedule of contributions because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The budgetary comparison information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Estacada Rural Fire District No. 69's basic financial statements. The combining statements, individual fund schedules, and schedule of property tax transactions are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements and individual fund schedules are the responsibility of management, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The schedule of property tax transactions has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Report on Other Legal and Regulatory Requirements

In accordance with Minimum Standards for Audits of Oregon Municipal Corporations, we have issued our report dated November 14, 2017 on our consideration of compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing, and not to provide an opinion on compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

INTRODUCTION

As management of Estacada Rural Fire District No. 69, Estacada, Oregon, we offer readers this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2017. It should be read in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- At June 30, 2017, total net position of Estacada Rural Fire District No. 69 amounted to \$4,518,481. Of this amount, \$2,798,766 was invested in capital assets and the remaining balance of \$1,719,715 was unrestricted.
- The District's total net position decreased by \$672,501 during the current fiscal year.
- Overall expenditures were \$3,229,746, which exceeded total revenues of \$2,557,245 by \$672,501.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to Estacada Rural Fire District No. 69's basic financial statements. The District's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements present functions of the District that are principally supported by taxes (governmental activities). The governmental activities of the District include fire suppression.

The government-wide financial statements can be found on pages 11 through 12 of this report.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Fund Financial Statements

The fund financial statements are designed to demonstrate compliance with finance-related legal requirements overseeing the use of fund accounting. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities and objectives. All of the funds of Estacada Rural Fire District No. 69 are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of available resources, as well as on balances of available resources at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains seven individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and Facilities and Property Reserve Fund, both of which are considered to be major governmental funds. Data from the nonmajor governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

Estacada Rural Fire District No. 69 adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for each fund individually to demonstrate compliance with their respective budgets.

The basic governmental fund financial statements can be found on pages 13 through 16 of this report.

Notes to the Basic Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 17 through 41 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information, which includes the schedule of the proportionate share of the net pension liability, schedule of contributions, and budgetary comparison information for the General Fund. This required supplementary information can be found on pages 42 through 44 of this report.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

The combining statements referred to earlier, in connection with nonmajor governmental funds, are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 45 through 52 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. At June 30, 2017, the District's assets exceeded liabilities by \$4,518,481.

A large portion of the District's net position reflects its investment in capital assets (e.g., land, buildings, and equipment). The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

District's Net Position

The District's net position decreased by \$672,501 during the current fiscal year. The decrease is related to an increase in program expenses.

Condensed statement of net position information is shown below.

Condensed Statement of Net Position

	<u>Governmental Activities</u>	
	<u>2017</u>	<u>2016</u>
Assets and deferred outflows of resources		
Current assets	\$ 2,663,572	\$ 2,796,575

Net position - end of year	<u>\$ 4,518,481</u>	<u>\$ 5,190,982</u>

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measurement of the District's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the District's governmental funds reported combined fund balances of \$2,332,291, a decrease of \$260,323 from the prior year.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

The General Fund is the chief operating fund of the District. At the end of the current fiscal year, the total fund balance of the General Fund was \$1,739,175, an increase of \$46,459 over the prior year. Of this amount, \$1,723,127 represents unassigned fund balance, which is available for spending at the District's discretion.

A comparison of current year and prior year revenues and expenditures is shown below.

	<u>2017</u>	<u>2016</u>
Revenues		
Property taxes	\$ 2,497,128	\$ 2,332,131
Charges for services	-	11,500
Miscellaneous	<u>53,914</u>	<u>228,332</u>
 Total revenues	 <u>2,551,042</u>	 <u>2,571,963</u>
 Expenditures		
Current		
Personnel services	1,786,166	1,523,302
Materials and services	702,819	503,321
Capital outlay	<u>322,380</u>	<u>96,092</u>
 Total expenditures	 <u>2,811,365</u>	 <u>2,122,715</u>
 Excess (deficiency) of revenues over (under) expenditures	 <u>\$ (260,323)</u>	 <u>\$ 449,248</u>

The following denotes explanations for the significant changes in amounts between the current and prior year:

- Miscellaneous: Miscellaneous revenues decreased 76.4% from the prior year due to receiving payments for conflagrations in the prior year.
- Materials and services: Materials and services expenditures increased 39.6% over the prior year due to station improvements and remodels.
- Capital outlay: Capital outlay expenditures increased 235.5% over the prior year due to remodeling the resident house and ST330 for resident volunteers. The heating system went out and needed to be replaced. The freshwater plumbing had to be replaced due to the corrosion of pipes. This work included asbestos abatement.

BUDGETARY HIGHLIGHTS

Budget amounts shown in the financial statements reflect the original budget amounts and one approved appropriation transfer.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

The table below compares revenues and expenditures of the District to budgeted amounts used by the District to monitor performance during the year. The overall change in fund balances was budgeted at a net decrease of \$1,191,938. Total actual expenditures exceeded total revenues by \$260,323. The favorable variance of \$931,615 can be largely attributed to expenditures being less than anticipated.

	Final Budget	Actual	Variance with Final Budget Over (Under)
Revenues			
Property taxes	\$ 2,343,588	\$ 2,497,128	\$ 153,540
Miscellaneous	<u>27,563</u>	<u>53,914</u>	<u>26,351</u>
Total revenues	<u>2,371,151</u>	<u>2,551,042</u>	<u>179,891</u>
Expenditures			
Current			
Personnel services	1,898,731	1,786,166	(112,565)
Materials and services	1,064,358	702,819	(361,539)
Capital outlay	440,000	322,380	(117,620)
Contingency	<u>160,000</u>	<u>-</u>	<u>(160,000)</u>
Total expenditures	<u>3,563,089</u>	<u>2,811,365</u>	<u>(751,724)</u>
Excess (deficiency) of revenues over (under) expenditures	<u>(1,191,938)</u>	<u>(260,323)</u>	<u>931,615</u>
Other financing sources (uses)			
Transfers in	145,000	145,000	-
Transfers out	<u>(145,000)</u>	<u>(145,000)</u>	<u>-</u>
Total other financing sources (uses)	<u>-</u>	<u>-</u>	<u>-</u>
Net change in fund balance	(1,191,938)	(260,323)	931,615
Fund balance - beginning, as restated	<u>1,762,531</u>	<u>2,592,614</u>	<u>830,083</u>
Fund balance - ending	<u>\$ 570,593</u>	<u>\$ 2,332,291</u>	<u>\$ 1,761,698</u>

The following denotes explanations for some of the major variances between budgeted and actual amounts above:

- Miscellaneous revenues were budgeted for \$27,563. Actual revenues were \$53,914 (95.6% over budget) due to receipt of reimbursement for the 36 Pit Fire and the Mosier Train Derailment conflagrations.
- Materials and services were budgeted for \$1,064,358. Actual expenditures were \$702,819 (34% under budget) due to staff being conscious of their line items in the budget.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

- Capital outlay was budgeted for \$440,000. Actual expenditures were \$322,380 (26.7% under budget) due to projects coming in less than expected.

CAPITAL ASSETS

The District's investment in capital assets as of June 30, 2017 amounted to \$2,798,766, net of accumulated depreciation. This investment in capital assets includes land, construction in progress, buildings, apparatus, and equipment. The total depreciation expense related to the District's investment in capital assets during the current fiscal year was \$196,270.

Additional information on the District's capital assets can be found in Note III-B on pages 27 through 28 of this report.

KEY ECONOMIC FACTORS AND BUDGET INFORMATION FOR THE FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that could affect its future financial health:

- Property tax revenues are expected to remain stable.
- It remains uncertain exactly how the Affordable Care Act with regard to the "Pay to Play" and "Cadillac Tax" will affect the District's long-term financial health, but it will most likely increase costs and change the health insurance plan choices that the District offers to employees.

These factors were considered in preparing the District's budget for the 2017-2018 fiscal year.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of District's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional information should be addressed to: Estacada Rural Fire District No. 69, 445 SE Currin Street, Estacada, Oregon 97023.

RECONCILIATION OF TOTAL GOVERNMENTAL FUND BALANCES
TO NET POSITION OF GOVERNMENTAL ACTIVITIES

June 30, 2017

Total fund balances		\$ 2,332,291
Capital assets are not financial resources and are therefore not reported in the governmental funds.		
Cost	4,609,731	
Accumulated depreciation	<u>(1,810,965)</u>	2,798,766
Property tax revenue is recognized in the net position of governmental activities when the taxes are levied; however, in the governmental fund statements, it is recognized when available to be used for current year operations. Taxes not collected within 15 days of the end of the year are not considered available to pay for current year operations and are therefore not reported as revenue in the governmental funds.		
		142,658
Long-term liabilities not payable in the current year are not reported as governmental fund liabilities. Interest on long-term debt is not accrued in the governmental funds, but rather, is recognized as an expenditure when due. These liabilities consist of:		
Compensated absences payable		(284,362)
Net pension assets and liabilities are not financial resources and are therefore not reported in the governmental funds.		
		(976,996)
Current year PERS contributions are deferred outflows of resources that will be recognized as expenditures in the subsequent year.		
		597,242
The proportionate share of net differences between projected and actual earnings on investments will be amortized over the next five years.		
		<u>(91,118)</u>
Net position of governmental activities		<u>\$ 4,518,481</u>

The accompanying notes are an integral part of these financial statements.

NOTES TO BASIC FINANCIAL STATEMENTS

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Estacada Rural Fire District No. 69 have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

A. Reporting Entity

Estacada Rural Fire District No. 69 was formed in the early 1900s. The District currently operates two stations. Fire district boundaries cover approximately 88 square miles in Clackamas County, Oregon, including the City of Estacada. Emergency services provided are advanced life support (emergency medical services), fire suppression, technical rescue (vehicle extrication and water rescue), and fire code enforcement. The District is governed by a five-member board of directors elected from the District at large.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include: (1) charges for goods and services provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 15 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, expenditures related to compensated absences are recorded only when payment is due.

Property taxes, investment earnings, and charges for services associated with the current fiscal period are all considered to be susceptible to accrual and have therefore been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

General Fund – The General Fund is the District’s primary operating fund. It accounts for all financial resources of the District except for those required to be accounted for in another fund. The primary source of revenue is property taxes. Primary expenditures are for fire suppression, emergency medical expenses, and administrative support.

Capital Projects Fund

Facilities and Property Reserve Fund – The Facilities and Property Reserve Fund accounts for site preparation and other costs associated with the construction of a new fire station and for repairs to current facilities. The primary source of revenue is investment earnings. Primary expenditures are for station improvements.

Additionally, the District reports the following nonmajor governmental funds:

Capital Projects Funds

Communications and Data Systems Reserve Fund – The Communications and Data Systems Reserve Fund accounts for the purchase of new or replacement radio systems, mobile data computer systems, and computer server systems. The primary source of revenue is transfers from the General Fund. Primary expenditures are for equipment acquisitions.

Apparatus Reserve Fund – The Apparatus Reserve Fund accounts for the purchase or replacement of major fire apparatus, including fire engines, water tenders, wildland engines, and rescue vehicles. The primary source of revenue is transfers from the General Fund. Primary expenditures are for vehicle acquisitions.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Capital Projects Funds (Continued)

Rescue Tool Reserve Fund – The Rescue Tool Reserve Fund accounts for the purchase of new or replacement major EMS or rescue equipment. The primary source of revenue is transfers from the General Fund. Primary expenditures are for rescue equipment.

Personal Protection Equipment (PPE) and Self-Contained Breathing Apparatus (SCBA) Systems Reserve Fund – The PPE and SCBA Systems Reserve Fund accounts for the purchase of new or replacement personal protective equipment (firefighting gear) and self-contained breathing apparatus systems (air packs and compressors). The primary source of revenue is transfers from the General Fund. Primary expenditures are for PPE and SCBA equipment.

Utility Vehicle Reserve Fund – The Utility Vehicle Reserve Fund accounts for the purchase of new or replacement utility vehicles. The primary source of revenue is transfers from the General Fund. Primary expenditures are for vehicle purchases.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity

1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

1. Deposits and Investments (Continued)

State statutes authorize the District to invest in legally issued general obligations of the United States, the agencies and instrumentalities of the United States and the states of Oregon, Washington, Idaho, or California, certain interest-bearing bonds, time deposit open accounts, certificates of deposit, and savings accounts in banks, mutual savings banks, and savings and loan associations that maintain a head office or a branch in this state in the capacity of a bank, mutual savings bank, or savings and loan association, and share accounts and savings accounts in credit unions in the name of, or for the benefit of, a member of the credit union pursuant to a plan of deferred compensation.

2. Property Taxes

Under state law, county governments are responsible for extending authorized property tax levies, computing tax rates, billing and collecting all property taxes, and making periodic remittances of collection to entities levying taxes. Property taxes are levied and become a lien as of July 1 on property values assessed as of June 30. Property taxes are payable in three installments, which are due on November 15, February 15, and May 15.

Uncollected property taxes are shown as assets on the governmental funds balance sheet. Property taxes collected within approximately 15 days of fiscal year-end are recognized as revenue, while the remaining amount of taxes receivable are recorded as unavailable revenue because they are not deemed to be available to finance operations of the current period.

3. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost where no historical records exist. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance or repairs that do not add to the value of an asset or materially extend its life are charged to expenditures as incurred and are not capitalized.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

3. Capital Assets (Continued)

Property, plant, and equipment of the District are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Vehicles	5-10
Equipment	5-20
Apparatus	15-20
Buildings and improvements	30-40

4. Compensated Absences

Amounts of vested or accumulated vacation leave that are expected to be liquidated with expendable available financial resources are reported as expenditures when paid. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable available financial resources are reported as long-term liabilities on the statement of net position. Sick leave is vested and reported as long-term liabilities.

5. Retirement Plans

Most of the District's employees participate in Oregon's Public Employees Retirement System (PERS). Contributions are made on a current basis as required by the plan and are recorded as expenditures.

6. Deferred Outflows and Inflows of Resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position or fund balance that applies to a future period and so will not be recognized as an outflow of resources until then. The District has one item that qualifies for reporting in this category, which is deferred amounts related to pensions. These amounts are deferred and recognized as outflows of resources when the District recognizes pension expenses/expenditures. Deferred outflows of amounts related to pensions are included in the government-wide statement of net position.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

6. Deferred Outflows and Inflows of Resources (Continued)

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position or fund balance that applies to a future period and therefore, will not be recognized as an inflow of resources until that time. The District has two items that qualify for reporting in this category, which are unavailable revenue from property taxes and deferred amounts related to pensions. Unavailable revenue from property taxes is deferred and recognized as an inflow of resources in the period that the amount becomes available. Unavailable revenue from property taxes is reported in the balance sheet. Deferred amounts related to pensions are deferred and recognized as inflows of resources in the period when the District recognizes pension income. Deferred inflows of amounts related to pensions are included in the government-wide statement of net position.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense information about the net position of the Oregon Public Employees Retirement System (OPERS) and additions to/deductions from OPERS' net position have been determined on the same basis as they are reported by OPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

7. Fund Equity

The District reports fund equity in accordance with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. The following classifications describe the relative strength of the spending constraints:

- Nonspendable fund balance – amounts that are in nonspendable form (such as inventory) or are required to be maintained intact.
- Restricted fund balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed fund balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority (i.e., board of directors). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Assets, Liabilities, Deferred Outflows and Inflows of Resources, and Equity (Continued)

7. Fund Equity (Continued)

- Assigned fund balance – amounts the District intends to use for a specific purpose. Intent can be expressed by the board of directors or by an official or body to which the board of directors delegates the authority.
- Unassigned fund balance – amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

Commitment of fund balance is accomplished through adoption of a resolution or ordinance by the board of directors. Further, commitments of fund balance may be modified or rescinded only through approval of the board of directors via resolution or ordinance. Authority to assign fund balance has been granted to the fire chief and budget officer.

The District has not formally adopted a minimum fund balance policy.

E. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The District budgets all funds in accordance with the requirements of state law. Annual appropriated budgets are adopted for the general and capital projects funds. All funds are budgeted on the modified accrual basis of accounting.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

II. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (Continued)

A. Budgetary Information (Continued)

The District begins its budgeting process by appointing budget committee members. The budget officer prepares a budget, which is reviewed by the budget committee. The budget is then published in proposed form and is presented at public hearings to obtain taxpayer comments and approval from the budget committee. The budget is legally adopted by the board of directors by resolution prior to the beginning of the District's fiscal year. The board resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Total personnel services, materials and services, debt service, capital outlay, and contingency for each fund are the levels of control established by the resolution. The detailed budget document, however, is required to contain more specific detailed information for the aforementioned expenditure categories and management may revise the detailed line item budgets within appropriation categories. Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10% of a fund's original budget may be adopted by the board of directors at a regular board meeting. A supplemental budget greater than 10% of a fund's original budget requires hearings before the public, publication in newspapers, and approval by the board of directors. Original and supplemental budgets may be modified by the use of appropriation transfers between the levels of control. Such transfers require approval by the board of directors. During the year, there were no supplemental budgets. The District does not use encumbrances and appropriations lapse at year-end.

Budget amounts shown in the financial statements reflect the original budget amounts and one approved appropriation transfer.

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS

A. Deposits and Investments

Estacada Rural Fire District No. 69 maintains a cash and cash equivalents pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the fund financial statements as cash and cash equivalents. Interest earned on pooled cash and investments is allocated to participating funds based upon their combined cash and investment balances.

Investments, including amounts held in pooled cash and investments, are stated at fair value. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Fair value is determined at the quoted market price, if available; otherwise, the fair value is estimated based on the amount at which the investment could be exchanged in a current transaction between willing parties, other than a forced liquidation sale.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

A. Deposits and Investments (Continued)

Credit Risk

Oregon statutes authorize the District to invest in obligations of the U.S. Treasury and U.S. agencies, bankers' acceptances, repurchase agreements, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, and the Local Government Investment Pool. The District has not adopted an investment policy regarding credit risk; however, investments comply with state statutes.

Investments

As of June 30, 2017, the District had the following investments:

	<u>Credit Quality Rating</u>	<u>Maturities</u>	<u>Fair Value</u>
Money market accounts	Unrated	-	<u>\$ 1,993,004</u>

Interest Rate Risk

The District does not have a formal policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increases in interest rates.

Concentration of Credit Risk

The District does not have a formal policy that places a limit on the amount that may be invested in any one insurer. 100 percent of the District's investments are held by two banks.

Custodial Credit Risk – Investments

This is the risk that, in the event of the failure of a counterparty, the District will not be able to recover the value of its investments that are in the possession of an outside party. The District does not have a policy that limits the amount of investments that can be held by counterparties.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

A. Deposits and Investments (Continued)

Custodial Credit Risk – Deposits

This is the risk that, in the event of a bank failure, the District's deposits may not be returned. All District deposits not covered by Federal Depository Insurance Corporation (FDIC) insurance are covered by the Public Funds Collateralization Program (PFCP) of the State of Oregon, organized in accordance with ORS 295. The PFCP is a shared liability structure for participating bank depositories. Barring any exceptions, a bank depository is required to pledge collateral valued at a minimum of 10% of their quarter-end public fund deposits if they are considered well capitalized, 25% of their quarter-end public fund deposits if they are considered adequately capitalized, or 110% of their quarter-end public fund deposits if they are considered undercapitalized or assigned to pledge 110% by the Office of the State Treasurer. In the event of a bank failure, the entire pool of collateral pledged by all qualified Oregon public funds bank depositories is available to repay deposits of public funds of government entities.

The District holds accounts at US Bank and KeyBank, for which the FDIC provides insurance coverage of \$250,000 for demand deposit accounts and an additional \$250,000 for time and savings accounts, for each institution. At June 30, 2017, the District had deposits of \$306,404 insured by the FDIC and \$2,198,950 covered by the PFCP.

Deposits and Investments

The District's deposits and investments at June 30, 2017 are as follows:

Checking accounts	\$ 501,800
Money market accounts	<u>1,993,004</u>
Total deposits and investments	<u>\$ 2,494,804</u>

Cash and investments by fund:

Governmental activities	
General Fund	\$ 1,901,688
Facilities and Property Reserve Fund	379,245

III. DETAILED NOTES ON ALL FUNDS AND ACCOUNT GROUPS (Continued)

B. Capital Assets (Continued)

Depreciation expense was charged to the functions/programs of the District as follows:

Governmental activities	
Fire suppression	<u>\$ 196,270</u>

C. Interfund Transfers

Operating transfers are reflected as other financing sources (uses) in the governmental funds. Interfund transfers during the year consisted of:

	<u>Transfers in:</u>
	Nonmajor
	Governmental
	<u>Funds</u>
Transfers out:	
General Fund	<u>\$ 145,000</u>

The principal purposes of the interfund transfers in were as follows:

Nonmajor governmental funds:

Communications and Data Systems Reserve Fund: To provide funds for future equipment purchases.

Apparatus Reserve Fund: To provide funds for future vehicle purchases.

Rescue Tool Reserve Fund: To provide funds for future equipment purchases.

PPE and SCBA Systems Reserve Fund: To provide funds for future equipment purchases.

Utility Vehicle Reserve Fund: To provide funds for future vehicle purchases.

Total fund balances	<u>\$ 1,739,175</u>	<u>\$ 379,245</u>	<u>\$ 213,871</u>	<u>\$ 2,332,291</u>

IV. OTHER INFORMATION

A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. There was no significant reduction in insurance coverage from the previous year. There were no insurance settlements exceeding insurance coverage in any of the past three years.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

IV. OTHER INFORMATION (Continued)

B. Pension Plan

1. Plan Description

Employees of the District are provided with pensions through the Oregon Public Employees Retirement System (OPERS), a cost-sharing, multiple-employer, defined benefit pension plan. The Oregon Legislature has delegated authority to the Public Employees Retirement System Board to administer and manage the system. All benefits of the system are established by the legislature, pursuant to Oregon Revised Statutes (ORS) Chapters 238 and 238A. Tier One/Tier Two Retirement Benefit plan, established by ORS Chapter 238, is closed to new members hired on or after August 29, 2003. The Pension Program, established by ORS Chapter 238A, provides benefits to members hired on or after August 29, 2003. OPERS issues a publicly available comprehensive annual financial report and actuarial valuation, both of which can be obtained at: <http://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx>.

2. Benefits Provided

a. Tier One/Tier Two Retirement Benefit (ORS Chapter 238)

Pension Benefits

The PERS retirement allowance is payable monthly for life. It may be selected from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0% for police and fire employees, 1.67% for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

IV. OTHER INFORMATION (Continued)

B. Pension Plan (Continued)

2. Benefits Provided (Continued)

a. Tier One/Tier Two Retirement Benefit (ORS Chapter 238) (Continued)

Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by a PERS employer at the time of death,
- the member died within 120 days after termination of PERS-covered employment,
- the member died as a result of injury sustained while employed in a PERS-covered job, or
- the member was on an official leave of absence from a PERS-covered job at the time of death.

Disability Benefits

A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member for disability benefits regardless of the length of PERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

Benefit Changes after Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments. Under ORS 238.630, monthly benefits are adjusted annually through cost-of-living adjustments (COLA). The COLA is capped at 2.0%.

B. Pension Plan (Continued)

2. Benefits Provided (Continued)

b. OPSRP Pension Program (Defined Benefit)

Pension Benefits

The Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003. This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8% is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5% is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50% of the pension that would otherwise have been paid to the deceased member.

Disability Benefits

A member who has accrued 10 or more years of retirement credit before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45% of the member's salary determined as of the last full month of employment before the disability occurred.

IV. OTHER INFORMATION (Continued)

B. Pension Plan (Continued)

2. Benefits Provided (Continued)

c. OPSRP Individual Account Program (IAP)

Pension Benefits

An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the OPSRP IAP may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, or 20-year period or an anticipated life span option. Each distribution option has a \$200 minimum distribution limit.

Death Benefits

Upon the death of a non-retired member, the beneficiary receives, in a lump sum, the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

Recordkeeping

OPERS contracts with Voya Financial to maintain IAP participant records.

3. Contributions

PERS' funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and the Other Postemployment Benefit Plans. Employer contribution rates during the period were based on the December 31, 2013 actuarial valuation, which became effective July 1, 2015. Employer contributions for the year ended June 30, 2017 were \$75,044, excluding amounts to fund employer-specific liabilities. The rates in effect for the fiscal year ended June 30, 2016 were 5.43% for Tier One/Tier Two general service members, 5.43% for Tier One/Tier Two police and fire members, 0.45% for OPSRP Pension Program general service members, 0.45% for OPSRP Pension Program police and fire members, and 6% for OPSRP IAP.

IV. OTHER INFORMATION (Continued)

C. Pension Assets, Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability of \$976,996 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2014 rolled forward to June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan, relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2016, the District's proportion was 0.0065%, which increased from its proportion of 0.0050% measured as of June 30, 2015.

For the year ended June 30, 2017, the District recognized pension expense (income) of \$234,694. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 32,323	\$ -
Changes of assumptions	208,370	-
Net difference between projected and actual earnings on investments	193,013	-
Changes in proportion	134,742	-
Differences between employer contributions and proportionate share of contributions	<u>-</u>	<u>91,118</u>
Total (prior to post measurement date contributions)	568,448	91,118
Contributions subsequent to the measurement date	<u>28,794</u>	<u>-</u>
Total	<u>\$ 597,242</u>	<u>\$ 91,118</u>

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

IV. OTHER INFORMATION (Continued)

C. Pension Assets, Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Amortization Period Ending June 30</u>	<u>Deferred Outflows</u>	<u>Deferred Inflows</u>
2018	\$ 141,465	\$ 24,002
2019	112,671	24,002
2020	183,833	23,359
2021	137,887	16,156
2022	21,386	3,599
	\$ 597,242	\$ 91,118

D. Actuarial Assumptions

The employer contribution rates effective July 1, 2013 through June 30, 2015, and effective July 1, 2015 through June 30, 2017, were set using the projected unit credit actuarial cost method. For the Tier One/Tier Two component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years.

For the OPSRP Pension Program component of the PERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 16 years.

ESTACADA RURAL FIRE DISTRICT NO. 69
Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

IV. OTHER INFORMATION (Continued)

D. Actuarial Assumptions (Continued)

The total pension liability in the December 31, 2014 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	December 31, 2014
Measurement Date	June 30, 2016
Experience Study Report	2014, published September 2015
Actuarial Assumptions:	
Inflation Rate	2.50% (reduced from 2.75%)
Long-Term Expected Rate of Return ¹	7.50% (reduced from 7.75%)
Discount Rate	7.50% (reduced from 7.75%)
Projected Salary Increases	3.50% (reduced from 3.75%)
Cost of Living Adjustments (COLA)	Blend of 2.00% COLA and graded COLA (1.25% / 0.15%) in accordance with <i>Moro</i> decision; blend based on service.
Mortality	<p>Healthy retirees and beneficiaries: RP-2000 Sex-distinct, generational per Scale BB, with collar adjustments and set-backs as described in the valuation.</p> <p>Active members: Mortality rates are a percentage of healthy retiree rates that vary by group, as described in the valuation</p> <p>Disabled retirees: Mortality rates are a percentage (70% for males, 95% for females) of the RP-2000 Sex-distinct, generational per Scale BB, disabled mortality table.</p>

¹ At its September 25, 2015 meeting, the Public Employees Retirement System Board reduced the assumed rate of return on investments from 7.75% to 7.50%.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even-numbered years. The methods and assumptions shown above are based on the 2014 Experience Study, which reviewed experience for the four-year period ended on December 31, 2014.

IV. OTHER INFORMATION (Continued)

E. Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2015, the Public Employees Retirement System Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors.

The table below displays the OIC approved asset allocation policy for fiscal years beginning in 2014. The previous allocation was amended to reduce debt securities and public equity holdings and to increase private equity, real estate, and alternative equity holdings.

<u>Asset Class</u>	<u>Target Allocation</u>
Cash	0.00 %
Debt Securities	20.00 %
Public Equity	37.50 %
Private Equity	17.50 %
Real Estate	12.50 %
Alternative Equity	12.50 %
Opportunity Portfolio	<u>0.00</u> %
Total	<u>100.00</u> %

ESTACADA RURAL FIRE DISTRICT NO. 69

June 30, 2017

IV. OTHER INFORMATION (Continued)

E. Long-Term Expected Rate of Return (Continued)

The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes adjustment of the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Compound Annual (Geometric) Return</u>
Core Fixed Income	8.00 %	4.00 %
Short-Term Bonds	8.00 %	3.61 %
Bank/Leveraged Loans	3.00 %	5.42 %
High Yield Bonds	1.00 %	6.20 %
Large/Mid Cap US Equities	15.75 %	6.70 %
Small Cap US Equities	1.31 %	6.99 %
Micro Cap US Equities	1.31 %	7.01 %
Developed Foreign Equities	13.13 %	6.73 %
Emerging Market Equities	4.10 %	7.25 %
Non-US Small Cap Equities	1.88 %	7.22 %
Private Equity	17.50 %	7.97 %
Real Estate (Property)	10.00 %	5.84 %
Real Estate (REITS)	2.50 %	6.69 %
Hedge Fund of Funds - Diversified	2.50 %	4.64 %
Hedge Fund - Event-driven	0.63 %	6.72 %
Timber	1.88 %	5.85 %
Farmland	1.88 %	6.37 %
Infrastructure	3.75 %	7.13 %
Commodities	<u>1.88 %</u>	4.58 %
 Total	 <u>100.00 %</u>	
 Assumed Inflation - Mean		 2.50 %

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

IV. OTHER INFORMATION (Continued)

F. Depletion Date Projection

GASB Statement No. 68 generally requires that a blended discount rate be used to measure the total pension liability (the actuarial accrued liability calculated using the individual entry age normal cost method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's net position (fair market value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the net position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB Statement No. 68 will often require that the actuary perform complex projections of future benefit payments and pension plan investments. GASB Statement No. 68 (paragraph 67) does allow for alternative evaluations of projected solvency if such evaluation can reliably be made. The Governmental Accounting Standards Board does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation for sufficiency for PERS:

- OPERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB Statement No. 68 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience that might impact the plan's funded position.

Based on these circumstances, it is our independent actuary's opinion that the detailed depletion date projections outlined in GASB Statement No. 68 would clearly indicate that the net position is always projected to be sufficient to cover benefit payments and administrative expenses.

G. Discount Rate

The discount rate used to measure the total pension liability was 7.50% for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

Estacada, Oregon

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2017

IV. OTHER INFORMATION (Continued)

H. Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.50%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50%) or one percentage point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
District's proportionate share of the net pension liability (asset)	\$ 1,577,523	\$ 976,996	\$ 475,061

I. Pension Plan Net Position

Detailed information about the pension plan's net position is available in the separately issued OPERS financial report.

J. Changes in Plan Provisions During the Measurement Period

The Oregon Supreme Court decision in *Moro v. State of Oregon* issued on April 30, 2015 reversed a significant portion of the reductions that the 2013 Oregon Legislature made to future COLA through Senate Bills 822 and 861.

The Public Employees Retirement System Board adopted assumption changes that were used to measure the June 30, 2016 total pension liability. The changes include the lowering of the long-term expected rate of return to 7.50% and the lowering of the assumed inflation to 2.50%. In addition, the healthy mortality assumption was changed to reflect an updated mortality improvement scale for all groups, and assumptions were updated for merit increases, unused sick leave, and vacation pay.

K. Changes in Plan Provision Subsequent to Measurement Date

There were no changes subsequent to the June 30, 2016 measurement date.

Cumulative effect of errors	<u>(23,738)</u>	<u>(259)</u>	<u>20,000</u>	<u>4,000</u>
Fund balances - beginning, as restated	<u>\$ 1,692,716</u>	<u>\$ 19,545</u>	<u>\$ 159,001</u>	<u>\$ 36,393</u>

M. New Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following pronouncements that have future effective dates that will impact future financial presentations. Management has not currently determined what impact implementation of the following statements will have on future financial statements.

GASB Statement No. 85, *Omnibus 2017*, will be effective for the District beginning with its fiscal year ending June 30, 2018. The objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and post-employment benefits.

GASB Statement No. 83, *Certain Asset Retirement Obligations*, will be effective for the District beginning with its fiscal year ending June 30, 2019. This statement addresses accounting and financial reporting for certain asset retirement obligations.

GASB Statement No. 84, *Fiduciary Activities*, will be effective for the District beginning with its fiscal year ending June 30, 2020. This statement improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

N. Subsequent Events

Management has evaluated subsequent events through November 14, 2017, which was the date that the financial statements were available to be issued.

**AUDIT COMMENTS AND DISCLOSURES REQUIRED BY
STATE REGULATIONS**

INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

Board of Directors
Estacada Rural Fire District No. 69
Estacada, Oregon 97023

We have audited the basic financial statements of Estacada Rural Fire District No. 69 as of and for the year ended June 30, 2017, and have issued our report thereon dated November 14, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Compliance

As part of obtaining reasonable assurance about whether Estacada Rural Fire District No. 69's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures, which included, but were not limited to, the following:

Accounting records

Deposit of public funds with financial institutions (ORS Chapter 295)

Budgets legally required (ORS Chapter 294)

Insurance and fidelity bonds in force or required by law

Programs funded from outside sources

Authorized investment of surplus funds (ORS Chapter 294)

Public contracts and purchasing (ORS Chapters 279A, 279B, 279C)

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, contracts, and grants, including the provisions of Oregon Revised Statutes, as specified in Oregon Administrative Rules 162-010-0000 through 162-010-0320 of the Minimum Standards for Audits of Oregon Municipal Corporations.

OAR 162-010-0230 Internal Control

In planning and performing our audit, we considered Estacada Rural Fire District No. 69's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Estacada Rural Fire District No. 69's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Estacada Rural Fire District No. 69's internal control over financial reporting. However, we noted certain matters that we have reported to management of the District in a separate letter dated November 14, 2017.

This report is intended solely for the information and use of the board of directors and management of Estacada Rural Fire District No. 69 and the Oregon Secretary of State, and is not intended to be and should not be used by anyone other than these parties.
